Southwest Steel has created an outstanding reputation in the casting industry. Our dedication to our customers, quality craftsmanship and innovative ideas help us to build strong relationships that last. We are always striving to find ways to benefit our customers needs. By offering our new offshore pricing we can utilize our combined resources in order to save you money.

Let Southwest Steel develop a customized inventory management program specifically tailored to meet your individual needs, which will ensure that your company will always have the materials needed to finish your projects. In the event of an emergency, we also have the capabilities to provide back-up support on your materials locally.
